

ALLERGEN INFORMATION

There are 14 legally specified food allergens, and this table states which products contain or may contain them as follows:

- **Contains** – means a planned ingredient which is definitely present.
- **May contain** – means a supplier has reported to us a real risk of cross-contact on their production line.
- **May contain via shared equipment** – means there is a potential cross-contact through shared cooking equipment in our kitchen (fryers, flame grilling equipment - broiler and toaster).

Burger King® is committed to reducing the risk of allergens present in our kitchens. Our priority is to ensure customers with food allergies and intolerances have accurate information to enable them to make safe choices from our menu.

Burger King® kitchens have strict controls in place to reduce the risk of cross-contact such as separate storage areas, utensils and cleaning equipment for products containing allergens. In common with other catering operations, our kitchens are fast-paced and open environments, hence we cannot guarantee that any product is entirely free from any allergen.

Allergens marked with \* applies only for Northern Ireland stores.

Customers with food allergies and intolerances should be aware of this information. For gluten and tree nuts allergen source, please check the numbers as follow: 1- wheat, 2- barley, 3 - rye, 4 - oats, 5- spelt, 6 - kamut, 7 - almonds, 8 - hazelnuts, 9 - walnuts, 10 - cashews, 11- pecan nuts, 12 - Brazil nuts, 13 - pistachio nuts, 14 - Macadamia nuts, 15 - Queensland nuts, 16 - Coconuts. When there is a contain for gluten or tree nuts, the source is declared but possible traces of other sources for those allergens might be contained as well. Eg. a sandwich containing wheat could contain traces of other gluten sources, such as barley, rye, oats, spelt and kamut.

For allergen information for branded items such as dip pots, sachets and bottled drinks, see printed packaging for details.
