Risk management and governance

Attitude to tax planning

The Moto Group will use any applicable incentives and reliefs to reduce the tax costs of conducting its activities, with a view to maximising value on a sustainable basis for our shareholders.

The Moto Group aims to pay the amounts of tax legally due. There are likely to be circumstances where this amount may not be clearly defined, or where alternative interpretations or approaches might result in different tax outcomes. In these circumstances, the Group will use its best judgement to determine the appropriate course of action. This will usually involve seeking advice from external professional advisers.

The Moto Group will not enter into transactions that have a main purpose of gaining a tax advantage or intentionally make interpretations of tax law that are opposed to the original intentions of the legislation.

Relationship with HMRC

The Moto Group aims to have a constructive, professional and transparent relationship with tax authorities, based on foundations of integrity and collaboration to ensure it meets statutory and legislative tax requirements.

As the Group is considered large and complex it has a dedicated Customer Compliance Manager (“CCM”). This allows HMRC to gain a greater understanding of the business and have up front discussions on subjective areas. In addition the Moto Group will:
